connect²

A stunning new shower tray with an amazing unique feature

connect²
by KUDOS

A revolution in shower tray design

developed and manufactured in the UK

Features:

- Unique design avoids the need to cut joists or lift the tray on a plinth
- Guaranteed to work with all standard joist sizes and spans*
- High Gloss Acrylic Capped ABS skin for greater durability and resistance to impact damage or staining
- Structural Resin Bonded Stone Filler for increased stability
- Super-slim... just 35mm high
- All connect2 trays are supplied with re-inforced magnetic waste cover, blanking plug and a dedicated high flow waste rated to 35 litres per minute
- Covered by the KUDOS Lifetime Guarantee†
- Optional **KAMBA** Anti-Slip Coating

* With a connect 2 tray the ability to connect to at least one of the waste holes is guaranteed provided that the span between joists is no less than 305mm and the joist width does not exceed 75mm

† Guarantee applies to material and manufacturing defects only. See website for full Terms and Conditions

connect²

Make joist obstructions a problem of the past

The all new, attractive low profile connect² tray will never let a joist get in your way again, thanks to the unique offset dual waste outlet. Whether square or rectangular and whatever the size, the connect² tray will allow you to connect the waste fitting without the need to reposition joists or raise the tray onto a plinth.

Joists running length of tray

Where joists run parallel to the length of the tray and both holes are obstructed, simply turn the tray 180°. The unique offset position will ensure both will be free.

Joists running width of tray

Where joists run parallel to the width of the tray at least one hole will always be clear.

Eliminating the need to raise the tray on a plinth

Connect² now comes with the added option of KAMBA anti-slip coating ready applied

KAMBA coating creates an invisible textured surface which offers unparalleled anti-slip properties that provides bathers of all ages not only a safer environment but also a feeling of security and confidence whilst showering.

Exclusively available in the UK from KUDOS, KAMBA anti-slip coating is manufactured in Germany compliant with DIN 51097 for barefoot areas and is TÜV-tested and appropriately certified at slip resistance class "C".

As with all anti-slip coatings care must be taken when cleaning. Follow instructions provided.

connect² sizes and prices

Size mm	Code	Standard	Anti-Slip
800 x 800	C2T80	£280	£310*
900 x 900	C2T90	£295	£330*
1000 x 800	C2T10080	£310	£350*
1000 x 900	C2T10090	£320	£365*
1200 x 800	C2T12080	£330	£380*
1200 x 900	C2T12090	£340	£395*
1400 x 800	C2T14080	£390	£455*
1400 x 900	C2T14090	£400	£475*
1500 x 800	C2T15080	£400	£475*
1500 x 900	C2T15090	£410	£490*
1600 x 800	C2T16080	£410	£485*

New sizes are being introduced, contact us for up-to-date information (prices listed include VAT)
 * NOTE:- When ordering Anti-Slip finish Please add suffix AS to product code

Prices include waste

We Recommend the use of KUDOS Flexi Seal in the installation of all Connect2 trays Add soem text about what flexi seal is

Product	Size	Code	Price
Flexi-Seal	2 metres	KFS2	£25
Flexi-Seal	3 metres	KFS3	£38
Flexi-Seal	4 metres	KFS4	£50

connect² FAQ's

- Q: Will connect² trays work the same on all sizes?**
 A: Yes, the 2 waste positions are offset from the centre of the tray, therefore the ability to connect to at least one of the waste holes remains the same irrespective of the tray size.
- Q: Can I use any waste with connect² trays?**
 A: No, connect² trays have been designed to work with the hi-flow waste and trap supplied with each tray.
- Q: How do I blank off the outlet not used?**
 A: All connect² trays are supplied with a blanking plug which can be fixed in place permanently with solvent weld (not supplied).
- Q: How sure can I be that connect² will work?**
 A: Whilst we qualify the guarantee that joists need to be no less than 305mm spans or 75mm thick, during our extensive research into building practices over the past 75 years, we have yet to find joists spans less than 304mm or joists widths greater than 75mm. Even if your joists are outside these parameters, with effectively 4 waste positions to choose from, it is extremely unlikely that you will not be able to connect to one of them.
- Q: Is it safe to stand on the waste cover during showering?**
 A: Yes completely, the colour matched cover is reinforced and is secured with magnets to minimise movement under foot. The drainage area is also not affected.
- Q: How do I clean the waste?**
 A: Secured by concealed magnets, the waste cover is easily removed for cleaning.
- Q: If both wastes positions are free from obstruction can I fit two wastes?**
 A: Yes, all connect² trays are supplied with one waste & trap, if two can be fitted an additional waste can be purchased separately.
- Q: Are others sizes available apart from those listed on this brochure?**
 A: We are introducing new sizes every month so please contact us for the latest information on availability.
