

## SINGLE SLIDING DOOR

## INSTALLATION INSTRUCTIONS

## IMPORTANT

Please familiarise yourself with the fitting instructions before commencing fitting.

1. Check that you have the tools required.
2. Check that the installation site is compatible with size of door supplied.
3. Check all the enclosure components.
4. Check that the installation kit is complete.

**DO NOT attempt** to install the product unless you can tick ALL 4 boxes as satisfactory.

The wall plugs supplied with the installation kit are for use in solid walls. Hollow or 'stud-partition' walls will require alternative fixings. Please consult a hardware supplier for the correct type.

It may also be necessary to consult your tiling supplier about the correct method for drilling your tiles.

**USE SAFETY EYEWEAR WHEN DRILLING**

Any parts missing or damaged must be reported to your supplier within 5 days of purchase.  
Inspect shower enclosure before fitting. No claims will be acceptable after product has been installed.

12	Glass clip L/R	2	B08120/B08121				

## FIXING KIT COMPONENTS, TOOLS REQUIRED

Handle as supplied in carton may be different than shown

### Tools Required

- 6mm masonry drill bit
- Spanner
- Power drill
- Quality Silicone
- Pencil
- Tape Measure
- #2 Philips Head screw driver
- Spirit level with horizontal and vertical level indicators

### IMPORTANT – Installation site

1. Ensure the top surface of the shower tray on which the enclosure will be installed is level in every direction.
2. The tiles or other wall finishing should be effectively sealed at the tray edges.
3. Tiles should extend at least to the corners of the tray and a minimum of 2.0 metres from the top of the tray.

# FITTING FRAME

## PROCEDURE

**TRAY MUST BE 100% LEVEL IN ALL DIRECTIONS.**

Ensure the shower tray is level in all directions and is properly sealed to the wall. The wall must be tiled down to the top edge of the tray. Do not angle out bottom tile.

**TRAY MUST BE SEALED FULLY AROUND WHERE THE TRAY MEETS THE WALL.**

### Step 1

Loosen fixed glass panel clip.  
Do not remove the screw.

### Step 2

Fix the two fixed panels and upright profiles to the top bottom rail, using B08129 screw.

### Step 3

Put a dab of silicone in the corner between glass panel and fixed clip to the bottom when sliding the clip under the glass and back into position.

**Ensure bottom seal is present on glass, remove small corner protector/seal if present.**
